Fakharjokhio76@gmail.com

Motivated IT student with a strong programming foundation and self-taught expertise in Python. Seeking an internship in a software house to apply skills in data analysis, GUI development, and AI. Eager to contribute to innovative, real-world projects and grow within a collaborative technical team

Technical Skills

- **Programming Languages:** Python (Proficient), C, C++, Java, C# (Basic).
- **Libraries:** Pandas, NumPy, Seaborn, scikit-learn, Streamlit.
- **Web Technologies:** HTML, CSS (Familiar).
- **Tools:** Git, Visual Studio Code, SQL.
- **Soft Skills:** Analytical problem-solving, rapid learner, self-motivated.

Projects

- **AutoML Data Analysis Tool** : End-to-end automated ML pipeline that cleans data, trains multiple models, selects the best performer, and enables predictions with one click. Users can download EDA reports, model reports, and trained models.
- **Data Visualization App** : Interactive dashboard for visualizing datasets with 8+ chart types and customizable palettes
- **Prediction & Recommendation Systems** : Developed multiple ML-based systems for data prediction and personalized recommendations across various domains

Education

2023-27

Bachelor of Science: Information Technology

Shaheed Benazir Bhutto University Shaheed Benazir Abad – Nawabshah

2020-22

Completed Inter(12th)

Government Boys Degree Collage Daulatpur

Additional information

Languages: Fluent in [English, urdu, sindhi]

Interests: Coding, technology, software development trends, AI, and UI/UX design
